VASCULAR SCREENING PACKAGE INCLUDES:

- Carotid Vascular Ultrasound
- Abdominal Aorta Vascular Ultrasound
- Body Mass Index Evaluation
- Peripheral Arterial Disease Screening

\$89 PER PERSON

Ask about our group pricing

ALL SCREENINGS ARE SELF-DIRECTED AND DO NOT REQUIRE AN ORDER FROM YOUR PHYSICIAN

CAROTID VASCULAR ULTRASOUND

This screening helps identify the risk of a stroke by testing for plaque buildup in the carotid arteries.

ABDOMINAL AORTIC VASCULAR ULTRASOUND

The Abdominal Aorta Vascular ultrasound checks for the presence of and abdominal aortic aneurysm that could lead to a ruptured aorta.

BODY MASS INDEX EVALUATION

PERIPHERAL ARTERIAL DISEASE SCREENING

Screening for Peripheral Arterial Disease measures the circulation in your legs. Early detection of peripheral artery disease (PAD) in asymptomatic patients and treatment may reduce the risk of cardiovascular disease (CVD).

RISK FACTORS

- History of smoking
- Over the age of 50
- High blood pressure
- Family history of heart disease or stroke
- Over the age of 40 and overweight
- Diabetes
- High cholesterol
